COVID-19 Protocols for Cleaning and Disinfection

The University has adopted this protocol to comply with applicable state and local public health orders and to be consistent with applicable federal and state guidance. The Provost's Office may issue updated protocols, which become effective upon adoption to respond to changes in state and local public health orders, to be consistent with new federal and state guidance, and/or to adapt to changing conditions on campus. Please watch for updates to these protocols and regularly check the [DU COVID-19 website](#) for news and other important information.

1. Building Occupant Responsibilities

DU personnel are asked to participate in the disinfection/cleaning of their work space when entering building spaces (offices, office suites, classrooms, etc.).

- In areas not serviced by the Custodial department, all individuals returning to buildings

disinfected will be determined on a case-by-case basis. The area will be closed 24 hours prior to and during this procedure. Occupancy will be allowed 1-24 hours after the completion of this procedure based on the type of disinfection technology used.

Cleaning: Cleaning refers to the removal of dirt and impurities, including germs, from surfaces. Cleaning alone does not kill germs. But by removing the germs, it decreases their number and therefore any risk of spreading infection. Cleaning levels will be adjusted throughout campus in order divert custodial resources to the additional disinfection protocols necessary for a successful virus mitigation.

	Disinfection Definition: Specifically using chemicals to kill germs and the virus on surfaces. Disinfection	Cleaning Definition:	Disinfection Definition:	Cleaning Definition:
